

ALL-MAKES PARTS CATALOG

A DEDICATION TO YOUR BUSINESS

Your business is all about uptime – and you need vehicles that can keep up. That’s why we offer the most comprehensive ownership programs in the industry.

Our robust warranties demonstrate our confidence in our products – products you can rely on to provide the uptime you require. Plus, our remote engine diagnostics and connected vehicle technologies give you full visibility into the health of your vehicles and on the status of repairs to aid with planning and scheduling.

And our state-of-the-art distribution system means parts are available where and when you need them. After all, time is money. Which is why International and IC Bus ownership programs focus on three priorities: lowering your cost of operation, providing the expert support you deserve, and being a partner that’s easy to do business with. We strive to deliver an ownership experience that goes above and beyond your expectations.

TABLE OF CONTENTS

1 BRAKES AND WHEEL END

1-17

Air Brake Charging	2
Air Disc Brake	3
Hydraulic Brakes	4

The Right Brake Parts to Keep You on Your Journey

The Meritor® air brake portfolio offers the camshafts and cam kits needed to support complete brake jobs for uptime.

Tech Tip: Check the camshaft for cracks, wear or corrosion. Check the cam head bearing journals and splines. Replace worn or damaged camshafts. Install new bushings and seals whenever you install a new camshaft.

Built for Unsurpassed Performance on the Road

Meritor®'s STEELite X30™ brake drum is the industry leader, combining weight savings and strength for increased payload and fuel economy. The maximum allowable brake drum diameter is stamped or cast into the outer edge of the drum. Place a brake drum diameter gauge inside the drum.

Tech Tip: Take several measurements within 90 degrees of each other at the open and closed edges of the drum's friction surface. If any of these measurements are 0.120-inch, replace the brake drum. If a brake drum is out-of-round, replace the drum.

Fleetrite® Tubeless Aluminum Wheels in Popular Sizes

Fleetrite offers tubeless aluminum wheels in two of the most popular sizes — 22.5" x 8.25" and 24.5" x 8.25". These aluminum wheels are one of the lightest weighing wheels to help improve fuel economy and increase payload, which means big savings for on-highway applications. The single-piece metal reduces vibration, cutting down on tire wear.

Fleetrite® Bumper Options

Fleetrite provides quality parts with many bumper options to fit your heavy-duty truck. Fleetrite bumpers are available in chrome or painted finishes and are designed to be lightweight and aerodynamic.

fleetrite.com

**WE DIDN'T BRING THE WORLD'S
GREATEST MINDS TOGETHER
TO MAKE A SMALL CHANGE.**

*Comparing the fuel economy of the 2017 GHG International® A26 engine in a 2017 International® LT® Series truck with aero package to the fuel economy of the new International® S13 Integrated Powertrain in a 2024 International® LT® Series truck with the LT aero package and chassis enablers. Actual customer results may vary due to various factors, including but not limited to truck specifications, weight of the vehicle, predictive features, environmental conditions, etc. ©2023 Navistar, Inc. All rights reserved. All marks are trademarks of their respective owners.

We brought them together to change everything.

Introducing the revolutionary International® S13 Integrated Powertrain. Brought to you by a global collaboration of industry powerhouses, it's meticulously engineered to set a new standard for the industry. With a dual-stage aftertreatment system, superior emission control, and an up to 15% boost in fuel economy*, it makes a cleaner impact on the environment and bridges the gap between where we are now and where we're going in the future. You needed a big change. You got it.

PN	DESCRIPTION	APPLICATION
3553499C2	Clamp, Battery Hold Down	3200, 3800, 4100, 4200, 4300, 4400, 7300, 7400, 7500, 7600, 7700, 8500, 8600, CACB, CASB, CXT, FBTC, HVHD, HVMD, J650, J750, MV, MXT, RXT, TR01
3557584C1	Clamp, Battery Hold Down	4300, 4400, 5600, 5900, 660, 680, 7300, 7400, 7500, 7600, 7700, 8500, 8600, CACB, FBTC, HVHD, HVMD, HX, MILI, MV, PRO
1664297C4	Clamp, Battery Hold Down	2500, 2600, 3000, 4300, 4400, 4700, 4800, 4900, 5500, 5600, 5900, 7300, 7400, 7500, 7600, 7700, 8100, 8500, CF50, CF60, HVHD, HVMD, HX, JCF5, JCF6, MV
481321C1	Clamp, Battery Hold Down	5000, 5500, 5600, 5900, 9100, 9200, 9300, 9400, 9900, PRO, TG01
4058420C1	Latch, Handle, Plastic Battery Box	LS, LT, MV, PRO, RH, TG01
3994043C2	Clamp, Battery Hold Down, 3 Group	BE20, CV, GM, HVHD, HVMD, IC Bus, RECB, RESB, RH
3508628C1	Clamp, Battery Hold Down	5500, 5600, 5900, 9100, 9200, 9400, 9900
3561780C1	Clamp, Cable, SGL Coated, 2	1652, 3000, 301C, 3800, 4700
3539667C1	Clamp, Battery Hold Down	4300, 4400, 7300, 7400, 7500, 7600, 7700, 8500, CACB, HVMD, MV
4056191C1	Latch, Leespring LHC 148U03S	LS, LT, MV, PRO, RH, TG01
4050045C1	Latch, Striker, 30" Battery	8600, 9900, LT, PRO, RH, TG01
4058423C2	Latch, Shaft, Plastic Battery Box	LS, LT, MV, PRO, RH, TG01
3616004C1	Clamp Assembly, Battery Hold Down	660, 8600, NC2, PROP
3553500C2	Clamp, Battery Hold Down	4300, 4400, 5000, 5500, 5600, 5900, 7300, 7400, 7500, 7600, 7700, 8500, 8600, 9800
481320C1	Clamp, Battery Hold Down	5000, 9100, 9200, 9300, 9400, 9900, PRO, TG01
1670134C1	Clamp Assembly, Battery Hold Down	9100, 9200, 9400
1666643C1	Clamp, Battery Hold Down	5000, 5500, 5600, 5900, 9100, 9200, 9400, 9800, 9900
1666784C1	Clamp, Multi-Battery Cable	5000, 5500, 5600, 5900, 9100, 9200, 9400, 9800, 9900
299261C91	Clamp, Rubber Cushioned	2500, 2600, 301C, 3200, 4100, 4200, 5000, 5500, 5600, 5900, 660, 680, 7300, 7400, 7600, 9100, 9200, 9300, 9400, 9800, 9900, CACB, CASB, CV, FBTC, FESB, GM, J650, J750, LS, RECB, RESB, RXT, SFCB, TG01, TR01

Fleetrite® Premium Mattresses – Quality is Key

Smooth, Quilted Surface

- Catch a good night's rest with the help of a Fleetrite® premium mattress smooth quilted surface, providing a soft and supportive feel. Choose your mattress from the foam or innerspring styles.

Easy to Handle

- New Fleetrite mattresses are easy to handle. Our mattresses are made of compressed foam for ease of handling, transporting and carrying into your truck.

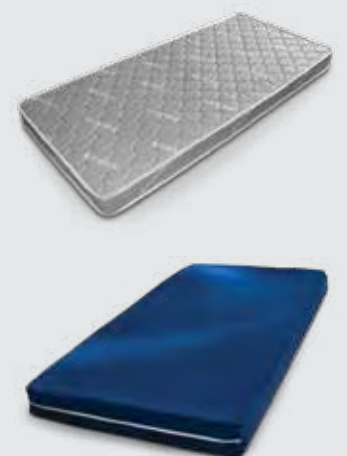

Waterproof and Machine Washable

- Fleetrite mattress protectors are waterproof, machine washable and completely encase the mattress. The encasement protects against bed bugs, dust mites and other allergens.

Complete Your Space

- Sheet sets and pillows complete your space for a comfortable rest.

fleetrite.com

UP TO 85% LESS ENGINE WEAR.

Our heavy-duty engine oil increases protection and maximizes fuel economy.

Are You Still Using a 15W-40?

International began factory-filling trucks with Shell ROTELLA® 10W-30 in 1998. One of our 10W-30 products, Shell ROTELLA T5 10W-30, helps you save up to 2% in fuel economy compared to a conventional 15W-40. It delivers up to 44% better wear protection based on API CK-4 wear test results. Get the most out of your engine by using Shell ROTELLA T5 10W-30.

Fleetrite® Engine Oil Has Improved Fuel Economy

Fleetrite's engine oil formulation contains many special features, including unique friction modifiers and new FA-4 viscosity to deliver improved fuel economy along with increasing engine life and protect against corrosion and wear.

fleetrite.com

LOWER VISCOSITY OILS ARE BECOMING THE NEW INDUSTRY STANDARD

Navistar has been factory-filling with a 10W-30 since 1998,
and the demand for 10W-30 continues to grow.

It's easy to see why.
Lower viscosity oils offer:

- Better protection against wear, deposits and oil breakdown
- Improved performance, even in extreme temperatures and conditions
- Reduced fuel costs and CO2 emissions (achieve up to 2% in fuel economy savings with Shell Rotella® T5 10W-30 Synthetic Blend)

Keep your trucks on the move.

Security on The Road

- RENEWED™ drivetrain components cost significantly less than new and offer greater reliability with re-engineered knowledge powering each component.
- Unique, best in class drive train solution that offers quality products, extensive availability, fast nationwide delivery and technical support.
- Heavy and medium duty manual transmissions, automated manual transmissions, Allison and light duty automatics, differentials, transfer cases, and steering gears.
- RENEWED drive train products are completely remanufactured, not just repaired, rebuilt or reconditioned.
- All products are backed by an International® warranty.
- TRC is an Allison and Eaton authorized rebuilder.
- All RENEWED Allison transmissions are built in a dedicated facility to Allison specifications with only Allison components.
- Authorized Eaton products leverage Road Ranger's nationwide warranty network and support functions.
- Every transmission is 100% disassembled. Each part is thoroughly cleaned, individually inspected and measured to exact OE specifications.
- Our high quality remanufacturing process turns out a high quality remanufactured transmission. This allows us to maintain low failure rates; giving you the longest warranty, best service and the least amount of down time which results in more profits to you.

Quality All-Makes Parts You Can Depend On

Fleetríte® clutches are offered with a wide range of torque ratings and damper configurations to ensure that you get the right clutch for your truck. This product line offers a complete range of options for Class 6, 7 and 8 vehicles, are Navistar aftermarket quality approved and backed by a one-year unlimited mile warranty when installed at an International or IC Bus location.

Angle Spring® Clutch Assemblies

- Original clutch technology
- Manual adjust mechanism
- 14" and 15" units available

Easy Effort® Clutch Assemblies

- Direct replacement for Easy Pedal Advantage® clutch
- Spring-A-Just mechanism
- Multiple application compatibility

Medium-Duty Clutch Assemblies

- Most complete line of new clutch assemblies for Class 6 and 7 vehicles
- 310mm, 330mm, 350mm, 365mm and 14" units available
- Push and Pull-style clutch assemblies

Supplemental Parts

- Essential parts for a successful clutch installation
- Prevent misalignment
- Ensure smooth engagement

**IdlePro High Amp Alternators**

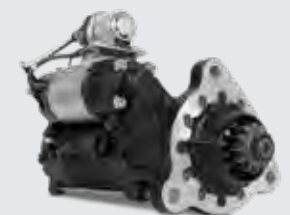

IdlePro® alternators, available in 170-, 190-, 210- and 240-amps of service – deliver industry-best output at low engine speeds through an innovative brushed, dual internal fan design. IdlePro alternators include a host of features that help extend battery life and increase vehicle uptime by enhancing electrical system and engine performance.

idleproextreme.com

**PowerPro 7 Heavy-Duty Gear Reduction Design Starters**

PowerPro® 7 starters offer unmatched reliability and performance in a space-saving package. These high-torque starters for heavy duty-diesel engines up to 16L include a heavy-duty gear reduction design that delivers 12V 7kW starting power. PowerPro 7 starters can help to significantly reduce overall operating costs and maintenance related downtime.

Before Replacing the Starter

Check the state of charge of the batteries. They should be greater than 12.4V. Test cables from the battery box to the starter by measuring voltage drop. Voltage drop is measured by applying a 500A load at starter while measuring voltage at starter and at batteries. Voltage difference between the readings should be less than 0.5V (equivalent to 1 mΩ).

QCP™ PAK – Complete Back-of-Cab Connection System

The Phillips QCP PAK (Power Air Kit) is a fleet's complete turnkey Back-of-Cab Air/Electric Connection System. This all-in-one kit includes Phillips' patented Quick-Change Plug (QCP™), factory-installed anodized gladhands on the 3-in-1, and two heavy-duty QWIK-CHANGE™ Tracker Spring Kits with QWIK-CLAMP™. When installed properly, the PAK delivers significant cost savings to a fleet and represents the best opportunity to last the full life cycle of the truck. Packaged within a pristine retail box that makes it ideal within a front parts area, the PAK has quickly become the #1 moving SKU for Phillips Industries!

Email PhillipsPAKConsult@phillipsind.com to learn more about our Back-of-Cab Connection System.

Pulley Installation on Delco Remy 24SI™ or 28SI™

1. Set the alternator in the horizontal position on a flat surface. If the pulley is installed when the alternator is in the upright or vertical position, the pulley may not be fully seated. This will result in a loose stack-up and early alternator failure.
2. Remove the pulley nut and cardboard spacer, and then discard cardboard spacer. Pay special attention to the orientation of the bearing slinger and spacer washer. These items commonly slide off the rotor shaft during removal of the pulley nut and cardboard tub.
3. Before installing the pulley, make sure that the spacer washer is placed against the bearing and then the slinger is placed against the spacer washer. Failure to place these in the correct order will result in rotor lock-up and early alternator failure.
4. Slide the pulley in place by hand. Never use a hammer to force the pulley on shaft. This could result in pulley or bearing damage.
5. Take the pulley nut that was removed in Step 2 and use it to hand-tighten against the pulley. Never start the pulley nut with an impact wrench. This could result in pulley or bearing damage.
6. There are two different methods to tighten the pulley nut.
 - #1: Using pass-through socket 15/16, secure the pulley nut so it doesn't move. Using a torque wrench with a 5/16 hex head socket placed in the hexagonal hole at the end of the rotor shaft, tighten the rotor shaft counterclockwise to 95-108 N-m (70-80 lb. ft.).
 - #2: Hold the shaft by placing a 5/16 hex wrench in the hexagonal hole at the end of the rotor shaft. Use a clicktype torque wrench with an open-ended 15/16 wrench attached. Tighten the pulley nut to 95-108 N-m (70-80 lb. ft.).

GENUINE CUMMINS PARTS

Genuine Cummins Parts are backed by more than 100 years of engineering experience. We've made significant investments in research, design and testing to ensure peak performance of our engines and unmatched quality of our parts.

Cummins Engineers conducted lab analysis and destructive testing on over 300 non-genuine overhaul kit components for ISX and N14 engines, including pistons, piston rings, piston pins, cylinder liners, main bearings, connecting rod bearings, head gaskets and injectors.

Of the over 300 non-genuine parts tested, none met all of Cummins Design Specifications.

THERE IS A DIFFERENCE.

NOW[®]

National Overhaul Warranty

GENUINE CUMMINS ISX OVERHAUL KITS

Cummins ISX Overhaul Kits for EPA 2010 and newer engines are available in three tiers: CLASSIC, PRO and ELITE.

CLASSIC	PRO	ELITE
Pistons and rings Cylinder liners Bearings Upper and lower gasket kits Thermostat Oil and fuel filters and more	All contents of CLASSIC kit Cylinder head Lube pump Water pump Fuel pump	All contents of the PRO kit Connecting rods Injectors Fuel supply connectors
Necessary components for a basic power cylinder rebuild.	For any overhaul that requires a cylinder head, this is the best value and Cummins most recommended overhaul.	Recommended for customers wanting the ultimate overhaul and with inclusion of injectors and connectors.

PRO and ELITE kits also contain all parts required to qualify for National Overhaul Warranty (NOW) coverage. Cummins NOW certified repair locations can offer their customers the peace-of-mind that only a NOW extended warranty can provide by covering both replaced and inspected parts.

For more information contact your local Cummins representative.

The High Cost of Low-Quality Filtration

Using low-quality fuel filtration contributes to a higher rate of unplanned downtime and maintenance expenses as a result of premature wear on the fuel system, power cylinder and even exhaust aftertreatment components.

Fleetrite® Radiators – a Variety of Configurations

Fleetrite radiators are available in a variety of configurations and applications. Many models are available in both all-metal and plastic/aluminum materials. The all-metal radiators have a patented welded tube to header joints where needed for extra strength and support, and are 100% leak tested.

Fleetrite® Charge Air Coolers Made for Better Fuel Efficiency

Fleetrite charge air coolers are made from industrial-grade alloy, furnace-brazed aluminum. Each Fleetrite Charge Air Cooler comes with a 2-year warranty when installed at an authorized International dealer. For better fuel efficiency, less wear and tear on the turbo and engine, the Fleetrite Charge Air Coolers have a zero acceptable leak-down ratio.

Air Pressure Check for Pneumatic Fan Clutch

Air pressure is critical to the operation of a pneumatic fan clutch, and minimum of 90 psi is required for it to fully disengage. When system pressure falls below 90 psi, excessive friction results, and the life expectancy of the fan clutch is significantly reduced. An air pressure check can be conducted between the solenoid valve and the fan clutch. To improve uptime, this test should be added to a 25k to 50k mile PM schedule.

USING REMAN PARTS IS LIKE BRINGING **SAVINGS** ALONG WITH YOU.

At Horton, we know that uptime is money. We also know that when you need a quality part you can trust, we want to save you hassle and keep you from breaking the bank. Exactly why we have a vast array of reman parts that are quality manufactured to spec. We also have a QuickShip Warehouse program to get you parts and get you back on the road—and fast. With Horton you know you're riding with the global leader in optimizing cooling systems for heavy, medium and light-duty trucks, buses, RV's, refuse vehicles and more.

To learn more, find your rep here:

Or email info@hortonww.com

FLEETRITE® FIFTH WHEEL.

Replace the inside components without the hassle of the top plate.

Order online at RepairLinkShop.com

PARTS FIT TO PERFORM

fleetrите.com

THE FONTAINE® APP MAKES IT EASY!

Did you know that you can type in a Fontaine Fifth Wheel serial number under "Search Parts" and you will see all the part kits for that specific model? If you enter a competitive fifth wheel part number you will see the Fontaine Complete Assembly cross reference. Select complete assemblies are about the same price as a top plate to make switching to Fontaine an attractive option. Available free from Apple/Google Play.

fifthwheel.com

Maintenance Time

Air in the fuel line of your Webasto heater can be a challenge and sometimes hard to detect. This simple tech tip will help you quickly identify if you have air in your fuel lines and how to remedy that issue.

STEPS

First take the fuel line off the heater and submerge it in a container with a liquid. Fuel is preferable, but even water would work fine for this.

Next cycle the fuel pump and watch the submerged end of the fuel line for bubbles. If bubbles are present, proceed to the next steps.

The fuel clamps must be tightened until the 'tabs' or 'ears' on the clamp are touching. Inspect the fuel lines, filter, and couplings for cracks or other damage, as well as the fuel clamps for proper torque.

Repair the issue and retest.

Maintenance Time

Webasto strives to offer the best heating solution for your application. One aspect that contributes to a great heating solution is a low-maintenance schedule. We'll outline the monthly and annual maintenance required for our most popular evaporative heaters. But first, we'll make a list of both the evaporative and high-pressure nozzle heaters.

EVAPORATIVE BURNER HEATERS

- Air Top 2000STC
- Air Top EVO 40 and 55 models
- Thermo Pro 50 ECO
- Thermo Pro 90
- Thermo Top C
- Thermo Top EVO

HIGH-PRESSURE NOZZLE HEATERS

- Thermo Top Pro 150
- Thermo E+ 320

HEATER MODEL MONTHLY MAINTENANCE ANNUAL MAINTENANCE

Air Top 2000STC

Operate the heater for 10 minutes at full load.

Perform the following checks before each heating season:

Checking heating air inlet and outlet for dirt and foreign objects. (Dirty or blocked heating air lines can cause overheating.)

Clean heater exterior (make sure no water gets in).

Check electrical connections for contact-corrosion and to ensure they are secure.

Check exhaust and combustion air intake lines for damage and ensure they are clear.

Replacing fuel filter, if fitted.

Checking fuel line and filter for leaks.

Thermo Top EVO

Operate the heater for 10 minutes at full load.

Perform the following checks before each heating season:

Clean heater exterior (make sure no water gets in).

Check electrical connections for contact-corrosion and to ensure they are secure.

Check exhaust and combustion air intake lines for damage and ensure they are clear.

Replacing fuel filter, if fitted.

Checking fuel line and filter for leaks.

Check coolant hose connections.

Check coolant hoses for cracks, swelling, or any other damage. Replace as necessary.

Check coolant hose clamps.

Check freeze protection point of coolant.

Fleetrite® LED Lighting Meets High Standards

Fleetrite LED lighting meets or exceeds DOT and SAE standards. The electronics are sealed and coated for moisture and corrosion resistance, and include high-impact, polycarbonate lenses.

Comprehensive LED lighting program, with product categories including

- Clearance Markers (Grommet Mounted, Surface Mounted)
- Stop/Turn/Tail, Park Turn
- Backup, License, Utility
- Connectors and Mounting Accessories
- Cab Markers
- Work lights

Quality and Durability

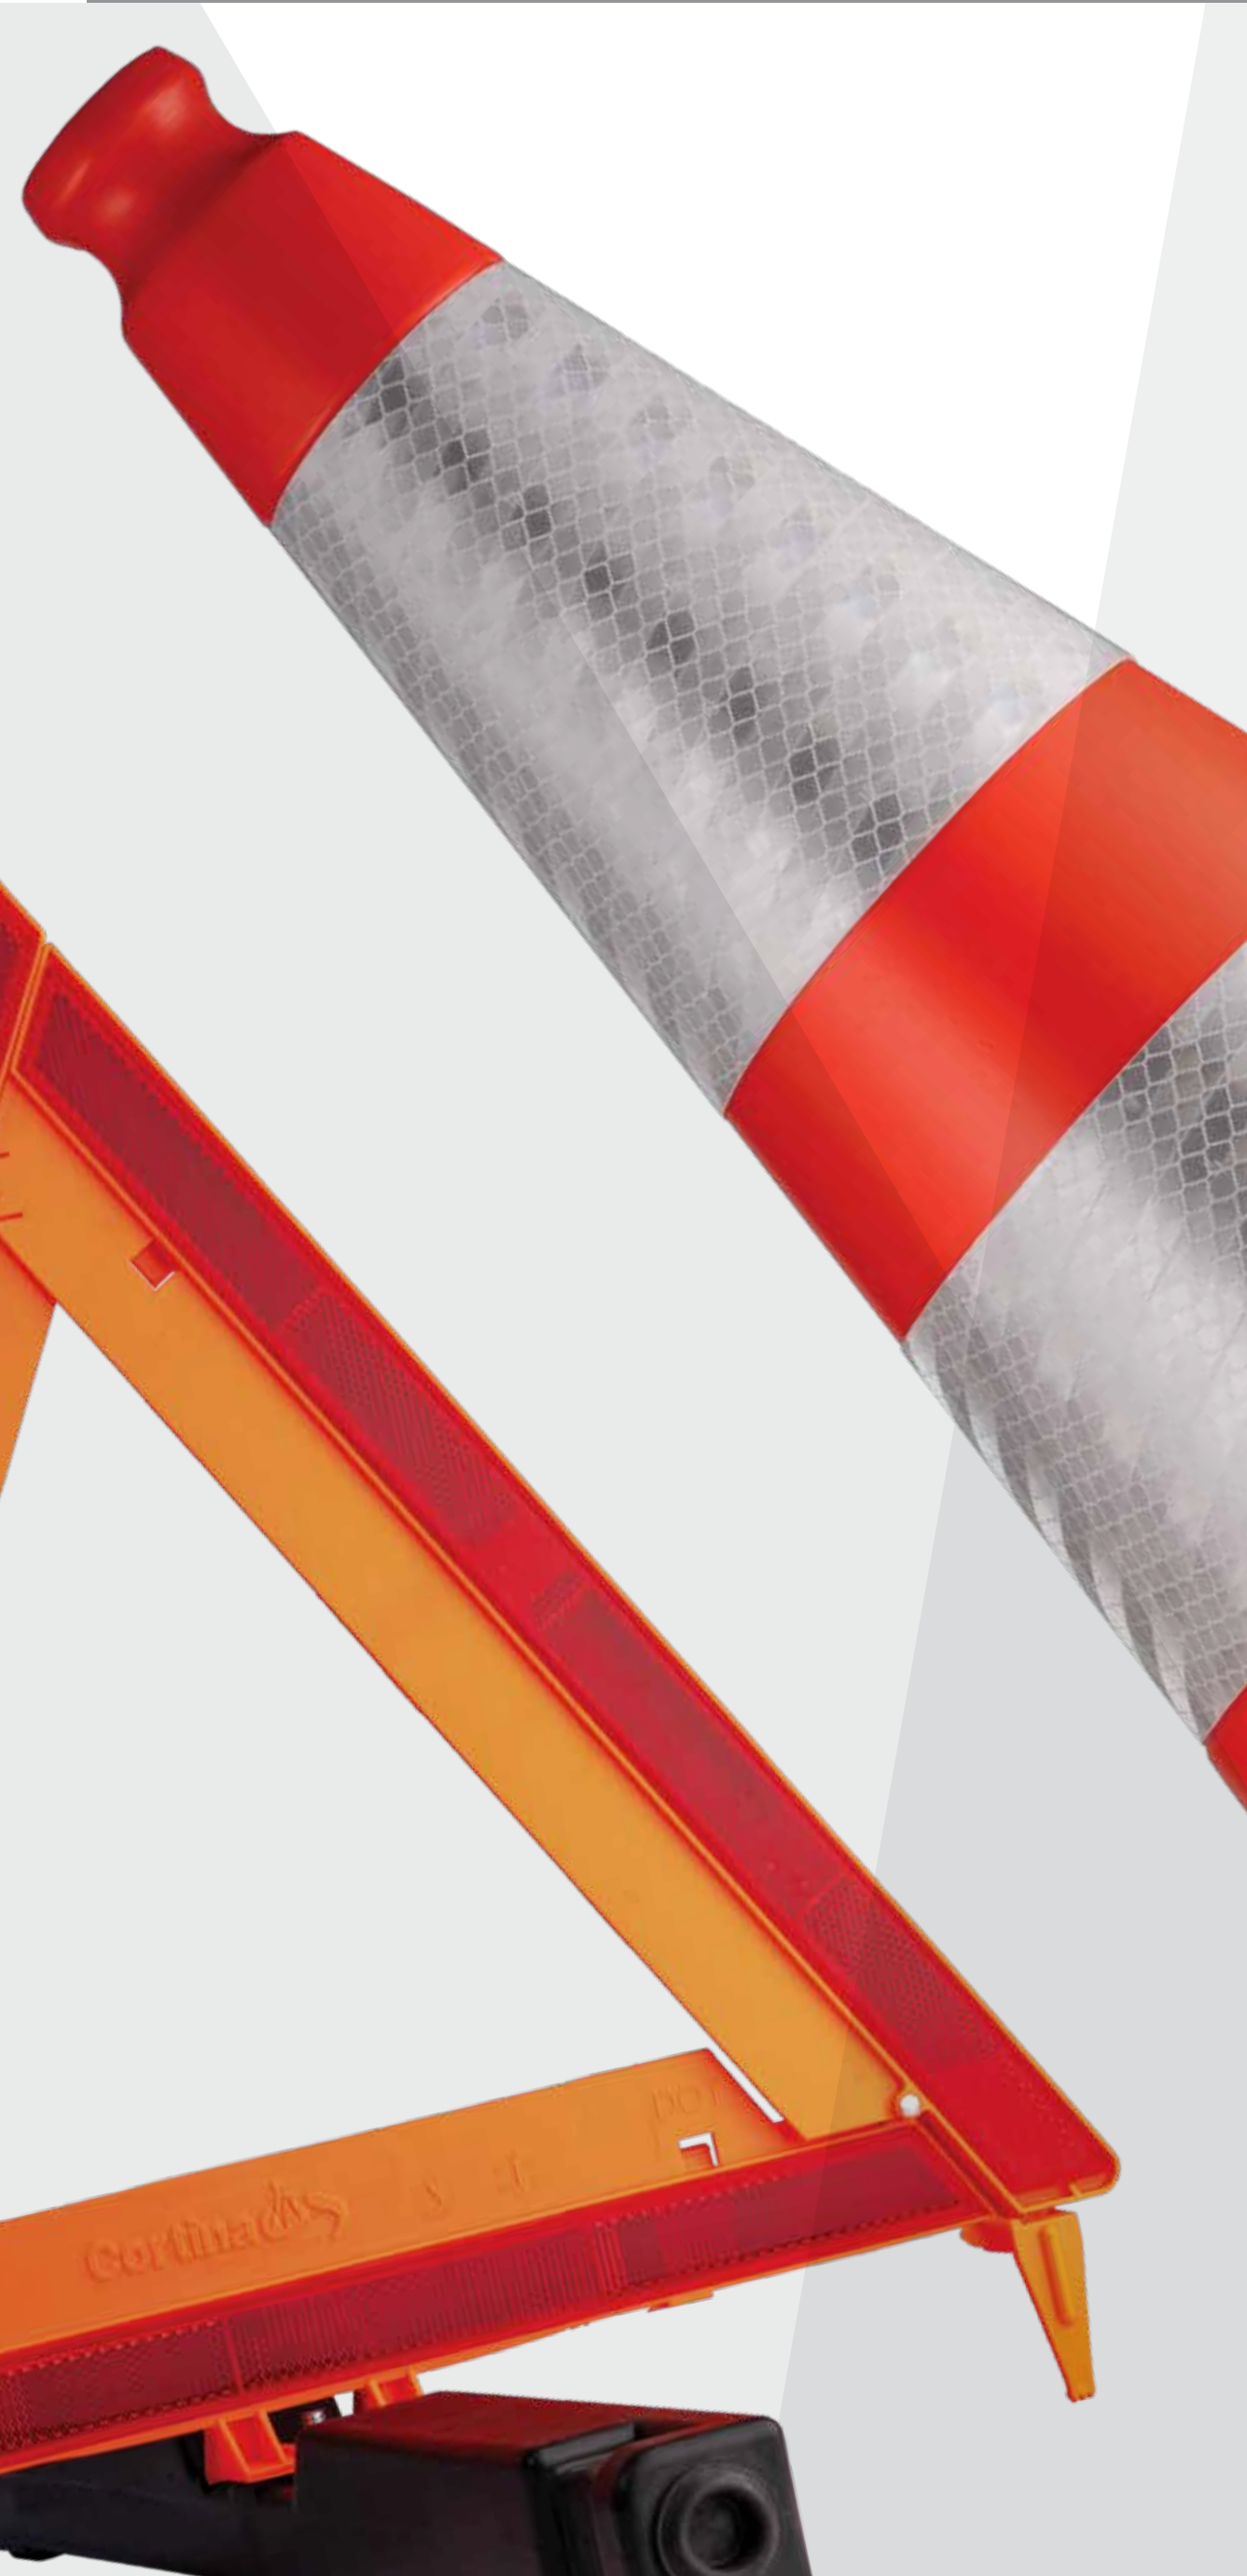

- Meets or exceeds DOT and SAE standards
- High-impact, polycarbonate lenses
- Sealed and coated electronics for moisture and corrosion resistance
- Direct OEM-style replacement lights designed to fit factory vehicle harness
- New and innovative technologies, like engineered lens optics for optimum light dispersion

Why choose Fleetrite LED?

- Low power consumption, reducing load on vehicle systems
- Higher energy efficiency, leading to cost savings on fuel
- Lower heat output prolongs light's lifetime
- Durable material and exceptional design

fleetrite.com

A LOW COST AND EFFECTIVE WAY TO PROTECT THE ENTIRE TEAM.

Our collection of industrial safety items are simple yet cost effective solutions to direct traffic, ensure safety and stay clean!

Free-Rotation Torque Rod Bushings

Did you know that almost all of ATRO's bushing feature a rotating pin? This makes installation easier, eliminates bushing wind up and reduces stress on the entire suspension. Since polyurethane is not affected by contaminants, ATRO bushings will last longer and hold up to the stresses of the heavy duty trucking industry.

ATRObushing.com

Fleetrite® King Pin Kits Cover 95% of Trucks

Fleetrite king pin kits cover 95% of trucks on the road with over 5,000 make/model applications. Installation is easy with no reaming or pressing-in of bushings required.

THE ORIGINAL

Misting vs. Leaking Shock Absorbers

A misting shock has a light mist of oil or grimy film on the outside of the shock body. This is considered normal as the mist is generated from a working shock. However, a leaking shock that shows streaks of fluid down the shock body means that something is wrong and they need to be replaced. Remember this saying: If it's STREAKING, it's LEAKING.

Fleetrite® Trailer Air Hoses Undergo a 100% Inspection

Fleetrite trailer air hoses undergo a 100% inspection prior to leaving the plant. All hoses conform to ASTM and SAE standards/specifications. All air hoses are designed with thicker tube springs and wire for increased durability.

Fleetrite's 3-in-1 ABS System is an All-in-One Assembly

Fleetrite's 3-in-1 ABS System is an All-in-One Assembly: ABS cable, emergency hose, service hose. It includes factory-installed gladhands for major end user labor savings.

THERE'S NO BETTER TIME TO GO ELECTRIC

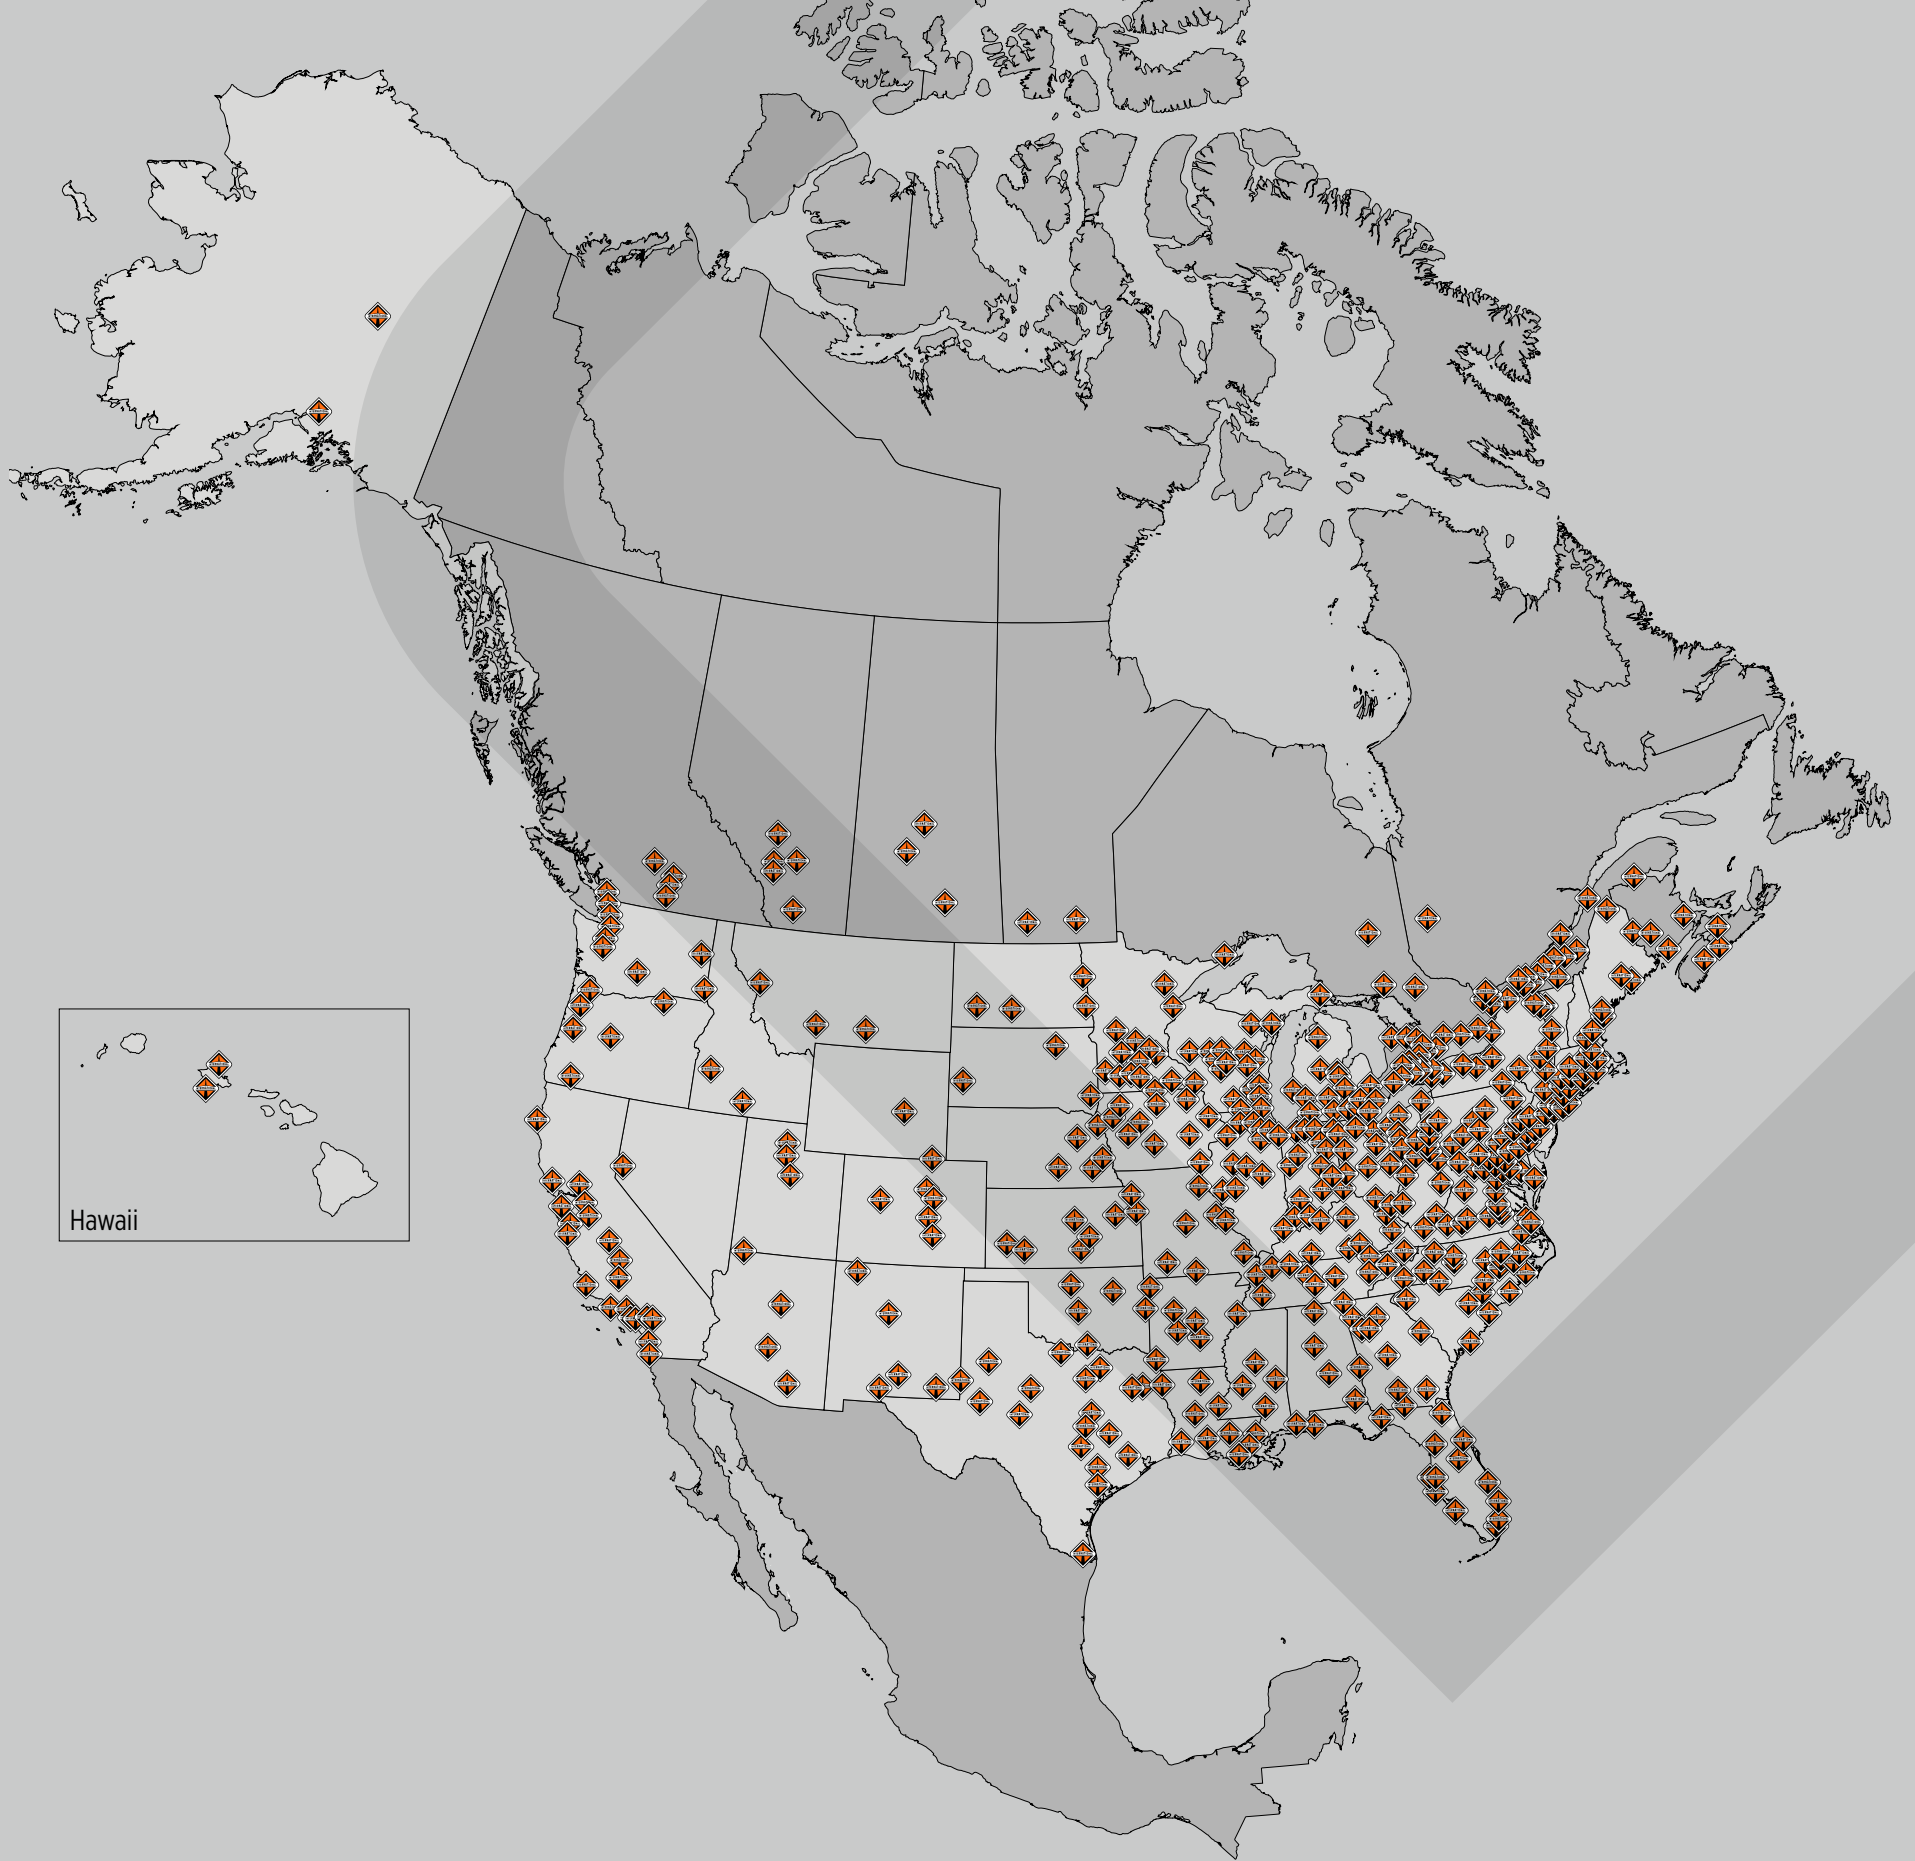

Introducing the all-new Electric CE Series from IC Bus

It is the first electric school bus to really get it right. We've worked hard to bring you the most advanced electric school bus in the industry, in the same safe, driver friendly package you're used to getting from us. Now is the best time to go electric.

Find the best way forward at icbus.com/electric

THE BEST WAY
FORWARD
FOR ELECTRIC

OUR GLOBAL PARTS NETWORK PROVIDES YOU WITH ONE OF THE MOST EXTENSIVE PARTS INVENTORIES IN THE TRUCKING INDUSTRY. WITH EIGHT PARTS DISTRIBUTION CENTERS IN THE UNITED STATES AND CANADA, WE HAVE ACCESS TO MORE THAN 1 MILLION UNIQUE PART NUMBERS, AS WELL AS SUPPORT FROM MORE THAN 700 DEALER LOCATIONS ACROSS NORTH AMERICA.
